As the ice floated down the stream the Robert Peebles, which was lying at the foot of Fifth street, set up a shrill whistle of alarm, which was taken up by the Covington ferry-boat, at the toot of Central avenue, the Ludlow ferry-boat, at the foot of Fifth street, and the tow-boat, Kate Waters, lying at the Fifth street, and the tow-boat, and the company with one from Stone's and one from Hengehold's landing.

It then floated down to the foot of Fifth street, where it disabled one of Cochnower's barges and one of Sheridan's barges, lying at Cochnower's landing.

All of these barges, however, found a safe harbor in the bend at Millcreek, and the only serious loss was that sustained by Mr. Daggett, who had ten barges and three flats lying at the mouth of Millcreek. When the ice began to flow out of that stream the cords were snapped in two like thread, and the fleet flowed down. One of the barges sunk at once and another at Porter, and two were recovered at Riverside. The other of an another at Porter, and two were recovered at Riverside.
